Federal Networks Networks 2017
Conference Agenda

Tuesday - February 14th, 2017

7:30 - 8:30 AM: Registration and Networking

8:30 - 9:00 AM: Keynote Address

New Administration, Next Generation Federal Networks: Opportunities and Risks

The conference chairman will identify new government marketplace opportunities and risks as agencies across the government design, acquire, and transition to their next generation networks. The presentation will discuss how changes in the administration and the customer environment will reshape the competitive landscape for carriers, integrators, system manufacturers and professional services companies.

Warren Suss - *President, Suss Consulting Inc. and Conference Chairman*

9:00 - 10:30 AM: Conference Session

GSA: The Transition to EIS

GSA's Assistant Commissioner for Information Technology Category (ITC), the ITC Director of Network Services Programs and the ITC Network Services Transition Director, along with Federal Agency representatives to the GSA Infrastructure Advisory Group (IAG) will provide an update on plans for the transition to the Enterprise Infrastructure Solutions (EIS) contract. Presentations will also cover the transition to EIS from the GSA Regional and WITS contracts and an update on other GSA mobility, cybersecurity and cloud computing initiatives.

Mary Davie – *Assistant Commissioner, Information Technology Category, Federal Acquisition Service, General Services Administration*

Amando E. Gavino – *Director, Office of Network Services Programs, Information Technology Category, Federal Acquisition Service, General Services Administration*

Bill Lewis – *Program Manager, Network Services, Information Technology Category, Federal Acquisition Service, General Services Administration*

Debbie Hren – *Network Services Transition Director, Office of Network Services, Office of Information Technology Category, Federal Acquisition Service, General Services Administration*

Jonathan Alboum – *Chief Information Officer, United States Department of Agriculture*

Joseph Klimavicz – *Deputy Assistant Attorney General and Chief Information Officer, Department of Justice*

Randall Conway– *Deputy Chief Information Officer for Information Enterprise, Department of Defense*

10:30 - 11:15 AM: Break/Networking

11:15 - 11:45 PM: Conference Session

Overview of U.S. Digital Services: **Mobilizing to transform the Government's digital services: lessons learned and case studies**

 Eric Hysen– *Executive Director, United States Digital Service, Department of Homeland Security*

11:45 - 1:30 PM: Luncheon Keynote Presentation

Keynote: How the Treasury Department will Leverage Next Generation Network Technologies

The Chief Information Officer (CIO) of the U.S. Department of the Treasury, who oversees a $ 3.5 Billion IT Portfolio, will outline Treasury's requirements from industry to support Treasury's network infrastructure, information sharing, cybersecurity, mobility, and cloud computing objectives.

Sanjeev "Sonny" Bhagowalia – *Chief Information Officer, Department of Treasury*

1:30 - 2:15 PM: Conference Session

John Skudlarek – *Deputy Chief Information Officer, Federal Communications Commission*

2:15 – 3:00 PM: Conference Session

Office of Personnel Management (OPM) CIO Update

The Chief Information Officer of the Office of Personnel Management (OPM) will provide an update on his department's initiatives to leverage the latest modern technology, protect the sensitive information used to effectively adjudicate background investigations, and bring the fullest security resources to bear against increasingly sophisticated and evolving threats.

David DeVries- *Chief Information Officer, Office of Personnel Management*

3:00 – 3:15 PM: Break/Networking

3:15 – 4:00 PM: Conference Session

Department of Interior (DOI) Network Services

The Program Manager for the U.S. Department of the Interior will present a plan for completing the transition from the Networx contract to the GSA Enterprise Infrastructure Solutions (EIS) contract. Antonio Chantre will also outline opportunities for advancing the DOI network infrastructure after the transition.

Antonio Chantre- *Senior IT Program Manager, Branch of Telecommunication Services, Office of the Chief Information Officer, U.S. Department of Interior*

4:00 – 5:00 PM: Conference Session

The Federal Aviation Administration Federal Telecommunications Infrastructure Replacement (FTI- 2)

The FAA is planning the replacement for its multi-billion dollar Federal Telecommunications Infrastructure (FTI) contract, which supports National Airspace System (NAS) operations by providing the connectivity required by FAA systems as well as applications like e-mail, Internet, payroll, and other administrative services. The FTI-2 Program Manager will provide an update on the upcoming FTI II acquisition, highlighting FTI II's technical, cyber, and management priorities.

Joe LaHoud – *Program Manager, FTI-2, Federal Aviation Administration*

5:00 - 6:00 PM: Sponsored Cocktail Reception

Wednesday, February 15th, 2017

7:30 - 8:15 AM: Registration and Networking

8:15 – 9:00 AM: Conference Session

Keynote: Update on the Joint Information Environment (JIE)

The Deputy DoD Chief Information Officer for Information Enterprise will provide an update on how the Joint Information Environment (JIE) will shape DoD's most important initiatives, including the latest developments related to network infrastructure and upgrades, cybersecurity, cloud computing, Unified Communications (UC), and secure mobility. The presentation will highlight new opportunities for industry to partner with DoD to achieve the objectives of the JIE. It will also include an update on the DoD IT budget and on new strategies to enhance the efficiency and effectiveness of the Defense Department's Information Enterprise.

Randall Conway – *Deputy Chief Information Officer for Information Enterprise, Department of Defense*

9:00 – 10:30 AM: Conference Session

DISA Update

Five top DISA executives will describe their latest strategies and plans for the Defense Department's networks, network services, and capabilities with an emphasis on upcoming requirements from industry. The presentations will cover network infrastructure, services, enhancements, and upgrades; Enterprise Services; Information Assurance (IA); cloud; cybersecurity and other next generation DISA IT and network technology requirements. The presentations will also include updates on major upcoming opportunities including Encore III ; System Engineering Technology and Innovation (SETI); the Global Information Grid Services Management Operations (GSM-O) replacement; Defense Enterprise Office Solution (DEOS): Enterprise Unified Capabilities, Virtual Desktop Infrastructure (VDI), and DECC Operations and Technical Support.

Jack Wilmer - *Vice Director, Development and Business Center, Defense Information Systems Agency*

Jason Martin – *Services Executive, Services Directorate, Defense Information Systems Agency*

Jessie Showers – *Infrastructure Executive, Infrastructure Directorate, Defense Information Systems Agency*

Col. Brian Lyttle – *Deputy Director, Cyber Development, Defense Information Systems Agency*

Captain Craig (Al) Holtslander – *Acting Director, Services Development Directorate, Defense Information Systems Agency*

10:30 - 11:00 AM: Break/Networking

11:00 – 11:45 AM: Conference Session

Army Network and IT Update

Speaker TBD

11:45 – 12:30 PM: Conference Session

Army Installation Requirements Update

Manish Patel - *Chief Information Officer, Program Executive Office, Enterprise Information Systems, U.S. Army*

12:30 - 2:00 PM: Luncheon Keynote Presentation

Cyber Command Capabilities Development Group Update

Dennis Bartko – *Director, Capabilities Development Group and Chief Information Officer, U.S. Cyber Command*

2:00 – 3:30 PM: Conference Session

Naval Network Opportunities

Three top Navy and Marine Corps officials will discuss their evolving strategies and plans for Navy and Marine Corps to provide the next generation of integrated communications and

information technology systems that enable information dominance and the command and control of maritime forces. The presentations will include a focus on how the Navy, Marine Corps, and industry will work together to design and implement the replacement for the $3.5 billion Next Generation Enterprise Network (NGEN) program.

Captain Donald Harder, *Deputy Program Executive Officer for Enterprise Information System, U.S. Navy*

Captain Mike Abreu – *Program Manager, Naval Enterprise Networks Program Management Office, U.S. Navy*

Mr. Harry Oldland – *Program Manager, Marine Corps Systems Command Program, U.S. Marine Corps*

---

*Air Force Information Technology Update

We apologize that the Air Force was not able to participate in this year's conference. An Air Force Information Technology Update will be provided at the AFCEA DC Breakfast on February 16th, 2017. To view the agenda and register, go to
